ELI'S BEE COMPANY
SANTA MONICA MOUNTAINS, CA

Pricing

Eli's Bees is a father-and-son bee keeping operation based in the coastal canyons and ridges of the Santa Monica Mountains. Each batch of honey is harvested from a single location at a specific time of year. As a result, each harvest has a unique flavor, color, and texture. All of our honey is kept raw to preserve the full health and taste benefits of the diverse nectars of the Los Angeles area.
